

Isabelle Sellon School May Newsletter

MAY 10 - MAY 20

As you are aware, all K-12 schools in Alberta will transition to online learning. Students at our school will engage in literacy and numeracy based instruction, assignments and assessments over the next nine school days. Students and families should expect anywhere between 6-8 hours each week; as a minimum, of learning time. This includes instructional time and independent work time.

Google classroom will be used to view learning tasks, submit student work for assessment and to access live teaching instruction through Google Meets.

If your child requires a Chromebook during this time, please contact Amber at the school office, or your child's teacher.

TRICKSTER

This week, all classes received initial instructional sessions with our resident teacher, Andres. Students are working in groups based on their chosen theme for a student inspired 'changemaker' documentary.

During online learning, students will be encouraged to continue work on their scripts, research and image collection for the documentary. Trickster Theatre residents will arrange time to meet with each classroom during at home learning to monitor group progress and provide feedback.

Upon our return to in-person learning, Trickster Theatre will support students with the filming process.

We are thankful for their support and flexibility during this time.

JUNE PLANNING

As a Grade 4-6 community school, your child's transition to and from our school is important to us.

With current health and safety regulations in place, there are other creative options to welcome Grade 3 students. Plans are also in development to assist Grade 6 students in their transition to CCHS.

As a staff, we will be planning these celebrations and transitions in the coming weeks.

Mission- To learn, play and be well together

Vision- Innovative learning, Students as Leaders, Strength through courage

Values- Creativity, Innovation, Growth, Courage, Community Connection, Inclusion
